

Cable entry plate round type KDPR/F

Product information

The KDPR/F cable entry plate is made of modified Polypropylene and is a round entry and fastening system for cables without plugs and pneumatic hoses such as those used in control cabinets, plant or machine construction. Wherever quick assembly is required with high packing density and cables must be protected, the cable insertion system is used. Special benefits of the KDPR/F are:

- Enormous time savings in assembly
- High packing density
- Standardized cut-out dimensions
- Large wire diameter ranges
- Several cables may be fed through an opening together
- Very flat design
