

ABB IRB 2600

Product information

Our tailor-made empty pipe packages offer the ideal solution for your robot.

Your advantages at a glance:

- Individual adjustment: The corrugated tube can be shortened if necessary to ensure a perfect fit.
- Fast delivery time: Benefit from a fast delivery time for your complete solutions.
- Easy installation: Quick and easy assembly saves valuable time.
- Flexible strain relief: Our hose packages contain two adjustable cable star blanks for optimal strain relief and termination. If required, we offer water jet machining.
- Longevity: Robust materials ensure a long service life and less maintenance.
- Optimal protection: Protect your cables from wear and external influences. Our products ensure worry-free operation.
- Everything from a single source: Get individual products, complete solutions, service and advice from a single source.

Information, conformities and approvals

Article	Order No.	Corrugated conduit	Corrugated conduit size	Condition	Diameter inside	Diameter outside	Retraction system	Spring strength	Axis	Strain relief strength	PU pcs.
IRB 2600	MS82501000000678	EWX-PAE	M40/P36	Closed	28.5	42.2	R-Tec Box	80	A3-A6	Cable ties	1
IRB 2600	MS82501000000679	EWX-PAE	M50/P48	Closed	36.7	53.5	R-Tec Box	100	A3-A6	Cable ties	1

Material properties

mod. polyamide PA 12  
mod. polyamide PA 6  
Thermoplastic elastomer  
Steel, powder coated

Thermal properties

Temperature / temperature range  
-40 °C – 110 °C / short term: 140 °C

Chemical resistances

Resistant to:  
Alcohol  
Greases  
Lyes  
Mineral oils

## ABB IRB 2600

### Chemical resistances

| Weak acids

### Technical information

**HF**

| Halogen-free
