

KEG/K ball bearing

Product information

The KEG-K is used wherever cables or cords exit from the cable protection conduit. The type KEG-K ball joint, which can be installed into the SH system holder easily and quickly, is the optimum fit for cords, cables and conduit throughputs; especially because its integratable strain relief is freely configurable to the needs of the

The KEG-K is the ideal connection of the Murrflex cable protection conduit to the SH system holder. The cables are sealed and strain is relieved at the same time.

Material properties

mod. polyamide

as of 2025-03-22 - 186059

KEG/K ball bearing

Thermal properties

Temperature / temperature range -40 $^{\circ}$ C - 110 $^{\circ}$ C

Fire properties

Fire classificationacc. to UL94: V0

Technical information

Halogen-free

Conformity

RoHS (EC Directive 2011/65/EU)

Approvals and operating permits

ROBI approval

Classification

ETIM 9: EC010745 ECLASS 14: 27439090

General information

Made in Germany

All details given in our sales brochures and catalogues, as well as the information available online, are based on our current knowledge of the products described.

The electronic data and files made available by Murrplastik, particularly CAD files are based on our current knowledge of the product described.

A legally binding assurance of certain properties or the suitability for a certain purpose can not be determined from this information.

All information with respect to the chemical and physical properties of Murrplastik products, as well as application advice given verbally, in writing or by tests, is given to the best of our knowledge. They do not release the buyer from the obligation to carry out his own tests and trials in order to determine the concrete suitability of the products for the intended purpose.
